He also accused her of screaming loudly in the halls, and of copying her examination papers; he knew nothing about the indelicate language only from hearsay; had been told that at a former boarding-place she entertained a gentleman caller until a late hour, and shocked the sense of propriety of the boarding-house keeper by her noise and unladylike language. SALINAS, November 10th.—A terrible affair occurred about 12 c'clock last night at the residence of Edward Fenton, some two miles as south of Salinas City. Among those who were there were Thomas play and neighbors of Mr. and Mrs. Fenton. Among those who were there were Thomas play and neighbors of Mr. and Mrs. Fenton. Among those who were there were Thomas play and present of age, Shortly after supper, and just as dancing was to be resumed, Garside and his neice, Alice Garside, a young lady about 20 years of age, Shortly after supper, and just as dancing was to be resumed, Garside stepped up to his niece and asked her if she was ready to return home, to which she replied if the negative; whereupon he made a thrust at her with a knife, the blade of which entered her left side, cutting between the tenth and eleventh ribs and penetrating the lung, inflicting a very dangerous wound. A physician was summoned immediately and dressed the wound, and hopes are entertained of the young lady's recovery, although she is in great daugar from inflammation. Immediately after committing the deed Garside disappeared amid the confusion that prevailed, and no trace of him has yet been found. No cause can be assigned for the act, for it does not appear that he had any previous difficulty with the girl. He is a well-to-do farmer, between 50 and 60 years of age, and has always borne a most excellent reputation. Charged.

Washington, November 10th.—In the Criminal Court this morning Judge Cox rendered a decision in the star route cases, discussing principally the question as to the infamy of the crime charged. The conclusion arrived at was that the crime was infamous, and the accused should have been proceeded against by indictment. He therefore sustained the motion expelling the information from the files of the Court, and ordered the discharge of the defendants.

SECOND DISPATCH.1 Washington, November 10th.—Few in Washington are surprised at the decision of Judge Cox, who grants the motion to strike off the information against the star route conspirators and the discharge of the defendants. Commencing at the foot of Y street, or at the junction of the Y street and the Sacramento river levee, the embankment along the river front has been raised from Y street north, to a uniform hight of four feet above the highest water mark, as far as the gas works. At the south end of this section this necessitated a raise of three feet, and gradually grew less for a dis-tance of 500 feet where the old levee was of the required hight. The levee was also widened so as to give it a uniform width of fourteen feet, upon the top. This was done by adding to the land side of the embankment. THE SCHOOL ELECTION.

Ens RECORD-UNION : I desire to ask some questions of this people. Why is it that certain men are so anxious to serve, and so persistently seek positions on the City Board of paid Directors, and because the desire is to form rings and crib from the public treasury? Or is it because the Directorship is a conveni-

Will the Republican Committee be a party to the farce of nomizating men who are not parents, who have not had sufficient experience in raising families to qualify them to enter into sympathy with children, to measure their wants, and know their needs?

Is it desirable to put men on the Board who are childless; who are chronic political aspirants, and who seek the position solely to place others under obligations to them, to be Durrants, \$2 25; Cherries, \$3 25.

Wheat—The lack of spirit on 'Change is still very evident. A fair representation of the shipping interest was present at this morning's session, but the light record of transactions denoted that little attention was given to business. firmness of sellers is not likely to be shaken by the dull trade of a day or week, and therefore no concessions from asking rates can at present be expected. Bargains in small parcels are not infrequent, as was evidenced to-day by the transfer of some 200 cds really good milling at \$1.75. A shipper would not look at such a small parcel, be it ever so fine. Some tolerably good shipping, almost equal to No. 1 standard, changed hands at \$1.73\frac{1}{2}\$ to the extent of probably 2,700 cds. Late yesterday about 4,000 cds No. 2 were placed at \$1.72\frac{1}{2}\$, a full figure. The use of a GAS STOVE for an hour, morning and evening, is all that is required. The expense is trifling; the trouble, care or danger none. The Election in New York. NEW YORK, November 10th .- The result State election engrosses the attention of the State election engresses the attention of the journals as well as the people. It is now probable that the Republicans have elected their State ticket by from 8,000 to 15,000, but lose both branches of the Legis-This is a result utterly undreamed of by the wildest politician, while its reverse has frequently occurred—the Republicans have lost their State ticket, but have preserved their power in the Legislature. The result their power in the Legislature. The result in good part is due to Kings county, which the Democratic journals admit is likely henceforth to be a Republican county. It gave Tilden and Hancock about 26,000 majority, but to-day is about even, though the Republicans are successful there on the local ticket by over 5,000. Howell, Brooklyn's defected candidate for Mayor says that defeated candidate for Mayor, says that henceforth he will act with the Republicans. The Brooklyn Eagle, one of the stanchest Democratic organs in the United States, undisguisedly expresses its satisfaction with the result, and openly declares that the city and county are much better off than if the Democrats had been successful.

The Tribunc says: The loss of the New York Assembly is not, perhaps, a matter of great importance. It may even have the good effect of showing the Republicans throughout the State that they cannot win elections by staying at home. The loss of the Senate is the more serious matter. The saving of any one of the ten districts which have been lost would have tied the Senate and given a casting vote to the Republican Lieutenant-Governor. That none of them were saved seems due to three causes—the Republican apathy, the weak Republican nominations and the Democratic bribery. The Times, summing up the results in the State election, says: It is impossible to deny, under the existing circumstances, that this is decisive victory the Republicans—that it establishes beyond doubt the steadfastness of

the State received by the Evening Journal put Carr's majority at 10,000. WASHINGTON, November 10th .- The Virwashington, November 10th.—The virginia Democrats are badly cut up at the election of Cameron. They predict that the Readjusters and Republicans in the Legislature will fall out at every election for the United States Senator; that Mahone pledged Lewis the Senatorship if he would consent to let his name be used Republicans members of the Legislature will upon for the race; or if Raymond will trot upon for the race; or if row margin in the Senate, advise the election of Wickham rather than have a coalitionist

MILWAUKEE, November 10th .- The claims Milwaukee, November 10th.—The claims made to-day at La Crosse by the Chairman of the Democratic State Central Committee that the State is yet in doubt, are not based on the returns. Sufficient returns are now in to insure the election of the entire Republican icket by pluralities of from 7,000 to 10,000. Secretary Paid, of the Republican State Central Committee, places the pluralities at 8,000 to 11,000, with the Legislature 57 Republican to 46 Democrats on joint bal-87 Republican to 46 Democrats on joint bal lot. There is no question whatever of the election of the Republican State ticket. The Outlook in Regard to the Next

WASHINGTON, November 10th .- The elec tion of a Democratic member of the House of Representatives from the Eleventh New York District destroys the majority of the straight-out Republicans, and they will be able to have only 146 votes—one less than a majority. The Republicans here are not one vote requisite to constitute a majority without trouble. They have nine Green-backers, two Virginia Randington Green-New York Independent Republican to recruit from, and their calculations are therefore based on a good foundation; although if these twelve members, who belong to neither of the regular organizations, were to combine, they could dictate their own terms. But since the Readjusters of Virginia are indebted for the success in their State election to the aid of

At the Postoffice Department the effect of Judge Cox's decision is much discussed. High officials assert that the effect is missunderstood. The Late President's Wound-Interesting Interview with Dr. Boynton. TOPEKA (Ks.), November 10th.—Dr. Boynton, with his wife, arrived here a few days ago. To-day, in an interview, when asked when he lost hope in the President's case, he said: "On the 23d of July, when he had the first rigor. I think that was the date. At any rate, it was when he had the first rigor.

I gave up then." "
"Was the chill a certain indication of the approach of death?"

pyænia."

"What was the occasion of the pyænia?"

"Pyæmia, you know, or blood-poisoning, results from broken-down pus—dead pus."

"Had pyæmia set in then?"

"I think so. You probably don't know— the public never did know—that the President's wound was never cleaned thoroughly till three weeks after he was shot. That is more than I have ever said about the matter before, but that is the fact of the whole case, and the ground for complaint of the President's surgical treatment in the early history of the case. Subsequent developments fully corroborated what I feared then; that is, that the pus had been allowed to lie in the wound till it rotted, and pyæmia had done its perfect work "You think this could have been avoided?"

The doctor alleges the most startling in-competency and bad management of a case of surgery in which more people were interested than ever before in a single case. He in effect represents Bliss as having fastened him-self upon the President, and taking charge of this most important trust without having een called to it either by the wounded President or his wife, and having charge of the case he allowed every chance for saving this great life to slip by bad management of the trust he had assumed.

Returns from twenty-six second elections for members of the Reichstag show that the Socialists have won seven seats. The National Liberals and the Secessionists have five respectively. The Progressists have four, the Popular party two, the Center party two and the Conservatives one. At Erfurt a Secssionist defeated Dr. Lucius, Minister of Agriculture, by a coalition of the Secessionists, the Socialists and the Clericals.

Four Progressist meetings on Monday were dispersed by police. Some harmless reference to Social Democrats served as a oretext for the interference of the authorities.

At the second ballot for the Reichstag at Frankfort, Sonnermann (Democrat) was elected by a vote of 9.149, against 8,600 for Doell (Socialist).

The police also prohibited a meeting at

LONDON, November 10th.—Gladstone, in his speech at Guildhall last night, declared that the law would be enforced with firmness and decision in Ireland. Its enforcement had been intrusted to those agents who had already earned a title to the gratitude of their countrymen by their courage and the exemplary patience with which they had performed their duties.

## DRY GOODS

Consigned by Order of the Superior Court to J. T GRIFFITTS. Receiver.

The showing of the past week is superlative. We are speaking to you on this paper just as if you were in our store. We give you the truth. We tell you that we have your requirements at such prices unheard of before in the history of

It is thought by some that the RED HOUSE is about to surrender; no such thing.

It is simply an adjustment in which the Superior Court takes a hand, and its ruling through the Receiver has made OUR SALE THE BIGGEST THING EVER KNOWN ON THE PACIFIC COAST.

-WITH A STAFF OF 65 MEN,-

There are some Houses who possess the every requisite to the furtherance of a realthy business, and under the management of the COURT RECEIVER the business of the RED HOUSE cannot suffer or the patrons of the House be disappointed. We deprecate all attempts at BOOMING a business where there is no BOOM. The fact is that the RED HOUSE, notwithstending its depletion of the past fourteen days, is still full of material suited to all, and at prices that cannot fail to be accepted as the lowest.

Let us quote a good old homely adage, that the "PROOF OF THE PUBDING IS IN THE EATING!" (Signed.)

J. T. GRIFFITTS.
